Dear CHHS community,

Given the continued uncertainty of international travel and to help you plan your future course schedule, **CHHS will be expanding the international experience waiver to include all CHHS students who will graduate in August 2022 or before.** Please note that while the travel component of the international experience is waived, an alternative international course remains a graduation requirement.

Alternative SDSU course options are available to fulfill the international requirement for all graduating seniors. As an example, HHS 350 fulfills the international requirement, explorations b, and the cultural diversity requirement. In spring 2021, fall 2021, and spring 2022, HHS 350 will be modified and will not require international travel. As such, all HHS 350 travel for summer 2021 is suspended.

If the extension of the international requirement waiver applies to you, further information will be shared with you via email, including a list of alternative courses to fulfill your international requirement.

*Independent programs may still run summer break programs abroad. Please consider the risks involved with traveling internationally before enrolling in a summer break program. If you are interested in a virtual experience, a list of remote service learning, study programs, and internships can be found on [Aztecs Abroad](https://aztecsabroad.sdsu.edu).*

Please direct any questions to [chhsintl@sdsu.edu](mailto:chhsint@sdsu.edu).

Best,
The CHHS Dean’s Office
